March 3, 2022

Dear Pacer Families,

This afternoon there was a plumbing issue arising from silt entering our water system from the city waterlines. As a result, we had some flooding in the math hallway and adjacent washrooms that required us to close down the hallway for the afternoon.

Classrooms that were affected were relocated to other vacant classrooms and common areas for teachers to continue on with their instruction. Any student who was unable to access their lockers this afternoon will have access at the end of classes today.

District Maintenance is currently onsite to address the situation and we expect to be back to normal for Friday morning.

If you have any questions or concerns, please do not hesitate to contact me at the school.

Sincerely,

John Pavão  
Principal, Grade 12
