November 21, 2020

Dear Parents and Guardians,

Unfortunately, there was a fire in the courtyard at the front of Delta Secondary School last night, which resulted in extensive damage to a small greenhouse.

The cause of the fire is being investigated by the Delta Fire Department. As far as we know, there were no injuries sustained by anyone as a result of the fire.

We are saddened to see a resource that is heavily used by students in the spring and summer months destroyed by the fire. Fortunately, there is no impact to our regular operations, and school will resume as normal on Monday morning.

We encourage anyone that may have information about the fire to call the Delta Police.

Yours sincerely,

John Pavão  
Principal
