

## Literacy 10 Assessment -

This assessment is a graduation requirement for all students. Please understand that it is not tied to a specific English course but instead, it evaluates your literacy skills that have been developed over the course of your 10-year education experience. It is expected that all students complete this assessment prior to graduation.

The majority of the assessment will consist of 24 computer scored questions and typed responses. You will be using either Chromebooks or our computer terminals to complete the assessment. You will not be permitted to use your own devices for the assessment.

For further information on the Graduation Assessments please follow the links below.

More information about the organization of the day will be provided about 3-4 weeks ahead of the assessment in January.

## Numeracy 10 Assessment –

This assessment is a graduation requirement for all students and is not tied to a specific Math course. Instead, it evaluates your numeracy skills that have been developed over the course of your 10-year education experience. It is expected that all students complete this assessment prior to graduation.

The majority of the assessment will consist of 24 computer scored questions and typed responses. You will be using Chromebooks or computer terminals to complete the assessment. You will not be permitted to use your own devices for the assessments. Unique to this assessment, there are two written-response questions on paper. These questions are based on tasks the student will have completed earlier in the assessment. Students will need to present detailed solutions to a problem using all the numeracy processes and support their thinking with explanations and assumptions.

For further information, please follow the links below.

<https://curriculum.gov.bc.ca/assessment/grade-10-numeracy-assessment>

More information about the organization of the day will be provided about 3-4 weeks ahead of the assessment in April.

If there are any questions or concerns about specific situations that pertain to you, please first connect with your student's counsellor.

## Literacy 12 Assessment –

This Literacy 12 assessment will be scored on a 4-point scale and that value will be recorded on student transcripts. Both grade 10 assessments and this Literacy 12 assessment must be completed for graduation. Our teaching staff has been looking to build students' numeracy and literacy skills across all courses your child is enrolled in here at Delta Secondary. The new curricular competencies encourage teachers to explore means of developing both skills in all subject areas.

A link to the Provincial website is provided below where you can explore the assessment in more detail and even see examples of the types of questions that could be asked.

[The Grade 12 Literacy Assessment | Building Student Success - B.C. Curriculum \(gov.bc.ca\)](#)

More information about the organization of the day will be provided about 3-4 weeks ahead of the assessment in November.

Please note that UBC has continued to require students receive at least a “proficient” (or score of 3) on the grade 12 assessment in order to be accepted/keep their initial acceptance offer at the school. Students can monitor the outcome of this assessment on the provincial transcript website. They can also ensure that their grade 10 assessments are complete here too. Link to the website here –
