

How to connect to District WiFi for Students

1. Connect to the network: **SD37-Open**
2. Open a web browser and you will be redirected to the Registration Portal (If you receive a **certificate** or **site warning** click **Advance/Proceed/Continue**)
3. Select **Student**
4. Once you have read the instructions, select **Continue**
5. Check: **I accept the terms**

STUDENTS:

Fill in your username and password, click Continue:

- Username is your Student Connect #
- Password is your Student Connect password

*Teachers can lookup passwords for students in Teacher Connect

Once authentication is successful, you may have to close and reopen your browser, on some devices you may need to reconnect to SD37-Open.

You can manage your registered devices from any school computer (if you would like to remove an old/lost device, for example) at: <https://packetfence.deltasd.bc.ca/status>
