For families and caring adults who are parenting a child or youth with mental health and/or substance use challenges.

Mental Health and Preparing for the Transition to Post Secondary

After high school, post-secondary education for our youth can be exciting but also stressful if they have struggled with their mental health. You're not alone. Discover some ways we can prepare our youth for school and support their mental health and independence while they are at school.

Learn from Dawn Schell from the University of Victoria, Melissa Feddersen from the University of British Columbia (Okanagan) and Victoria Keddis, a parent with lived experience.

Join us to watch a video presentation together and stay for a facilitated conversation by our Family Peer Support Workers.
